Bucks Youth Kills Dad

Yanks Hurl Tear Gas At Reds; DeGaulle: Hold At All Cost

Warns West On Berlin

PARIS (UPI)—President Charles de Gaulle said today the Western Allies must hold their positions in Berlin "by force if necessary."

He told a news conference attended by 700 reporters at the Elysee Palace that the Western powers "have no better means of serving world peace than by re-

(Continued on Page 3, Col. 6)

Good Evening!

School bells jingling all over the place.

Young fry start their trek (joyful? reluctant?) back to books today and by Thursday all should be in the fold. Good thing we're not one of 'em—we'd be getting up a petition to hold everything until the heat wave ends.

Okay, Labor Day's done. Now we commence to labor. Harder getting back to work than the work itself.

But a real nice long weekend it was. You had your choice of being broiled if you stayed at home, soaked by hit-skip storms if you went picnicking, banged up by an automobile if you went driving.

We took the scorching and we're not sure it was good. We're still tasting charcoal.

Now how about the weatherman skipping his perversity and switching back to normal climatics. Doesn't he know this is already September 5 and time for previewing autumn with a bit of nocturnal atmosphere you can snooze with?

Russia explodes another nuclear test device only 24 hours after the U.S.-British plea to stop it, and it appears the Kremlin isn't concerning itself with these half-hearted gestures from the West.

We'd better quit kicking it around. The administration had better start deciding right now where America must put its strength — in absolute war-deterring power, the kind that will guarantee peace, or into making life cozier for 180,000,000 Americans through a variety of handout programs sapping vitality from our defense establishment and our economic structure.

Nearly 400 killed on nation's highways since Friday night and while the figure is a bit below the total guessed by safety experts, it's nothing to cheer about.

And Pennsylvania, with 22 fatalities, was second only to California in road slaughter. Wasn't our highly advertised radar supposed to have helped prevent that?

Miss America rivals in Atlantic City this week with the contest grand finale Saturday night.

How come our big Lower Bucks County community doesn't join up with this nation-wide beauty-and-brains business? We've got a dozen gals who could make the resort finale a no-contest.

When a bride walks into a church are these words running through her mind: "Aisle, altar hymn?"

Watch your driving.

Bus Line Ends The Summer

It was "all aboard" for school this morning for these youngsters as Neshaminy School District began its 1961-62 school year. The children are catching the school bus at Delaware Ave. and Durham Road, Penndel to attend Penndel Elementary School. Neshaminy is the first district to start classes. Bensalem, Bristol and Tullytown resume tomorrow. The other local districts start Thursday. Parochial schools resume tomorrow and Thursday.

Credit Friend-Pilot With Heroism

Vincent O'Boyle, Wife Unhurt As Plane Crashes In Poconos

"Did you see a plane crash?" an upstate Pennsylvania fisherman asked a Yardley couple as they walked down a mountain side yesterday.

"Yes, we were in it," replied Mrs. Vincent O'Boyle. She is the wife of a partner in the O'Boyle Ice Cream Co., Farragut St. and Green Lane, Bristol. The O'Boyles live at 1801 Yardley Road.

The Yardley couple miraculously escaped injury along with the Trenton pilot and his wife, Ralph and Charlotte Newman, both 28, when their single-engine Cessna crashed in the Poconos at Texas Township, Pa.

Mrs. O'Boyle today gave this account of the incident:

The two couples left Mercer County Airport near Trenton on Sunday. The O'Boyles visited Mrs. O'Boyle's sister who lives near Hancock, N.Y. They were en route home, when the plane crashed shortly after takeoff from Honesdale Airport, Pa.

"We took off about 10:25 a.m.," she said, "and everything was fine. It is a pretty mountainous area.

"Suddenly, after we were airbound about five minutes," recalled Mrs. O'Boyle, "we started losing rpm's, and the engine began missing.

"My husband said, 'You know, we're not going to make it over that mountain.'" Then the pilot added, 'Just hold on.'

"If it weren't for him," she said, "we wouldn't be here today." She credited the pilot, who is with the 108th Tactical Fighter Squadron at McGuire AFB, with expertly bringing the plane in without mishap.

The Cessna had developed engine trouble at an altitude of 500 feet and the plane crashed into the trees about 50 feet off the ground, falling to within five feet of the ground. Damage to the plane was extensive, said Mrs. O'Boyle, including the wings and engine.

"After we climbed out," continued Mrs. O'Boyle, "we walked down the mountain side for about a mile. Finally we found a road, and began walking down it. We met the fisherman then, and he drove us to the airport."

Radar Used In Bucks

Pennsylvania State Police, armed with authority to use radar in trapping speeding motorists since Friday, were active in three areas of Bucks County over the holiday weekend.

Bethlehem State Police, in charge of the operation, said that radar check points had been operating over the three-day period on Route 611, in the vicinity of Doylestown; Route 309, near Shelly; and Route 563, near East Rockhill Township.

Police said that motorists who were stopped for speeding as recorded by radar were ticketed.

Reds Explode Nuclear Device

WASHINGTON (UPI) — The Atomic Energy Commission announced today that Russia exploded another nuclear device early today.

The AEC said the yield of the latest detonation was in the low to intermediate range.

This was about the same range as the last two devices exploded by the Russians, the first on Sept. 1 and the second Mondoy.

The two-line AEC announcement did not say where today's explosion took place.

After Border Dousing

BERLIN (UPI) — U.S. soldiers on border patrol today hurled tear gas grenades at East German Communist police who doused them from across the Berlin border with a high-pressure water hose.

It was the first time Western soldiers on border duty in Berlin had used tear gas grenades to retaliate against provocations by the Communist police.

A three-man patrol, including an officer and two enlisted men, tossed five or six gas grenades over the Communist - erected wall dividing the city after the Red police sprayed them from across the border, West Berlin police said. The Communist police scurried for cover.

An American spokesman later confirmed the police report.

The incident took place at 1:30 a.m. (8:30 p.m. EDT Monday) on the border between East and West Berlin at the corner of Sinsheimer and Heidelberger Strassen.

American Warns Reds

The grenade - tossing incident was disclosed as the American commandant of Berlin was warning his Russian counterpart that the Russians would be held responsible for the actions of the Communists on the border.

Maj. Gen. Albert Watson II met for 45 minutes with Soviet Col. Ivan Solovyov at American headquarters at the Russian's request. Solovyov rejected a U.S. protest of Aug. 26 against Communist interference with American official traffic across the East-West Berlin border and registered a protest of his own.

The incident was an indication of a toughening attitude by the American military in the face of repeated Communist provocations.

Monday, the Americans drew an orange chalk line at Friedrichstrasse—two yards within territory claimed by the East Germans—and stationed five heavily armed soldiers on it to show where the border was.

The East Germans challenged the action verbally but did not try to move the soldiers.

Crackdown On News

Throughout East Germany today the Communists moved to stop the flow of Western news over the airways to the 17 million people of the Red zone.

The Communist youth newspaper Young World told young Communists to climb on the roofs

Heat Wave Mark Equaled

Mercury Hits 90 5th Straight Day

Like in the song, Lower Bucks is having a "heat wave."

A 30-year-old record for the most consecutive days with high temperatures of 90 or above for September was matched today when the temperature hit 90 at 1 p.m.

George Whiteley Jr., forecaster for the U.S. Weather Bureau in Trenton, predicts today's high temperature will be in the 90s, with some scattered thundershowers by this afternoon or evening. Mostly fair and hot weather is forecast.

The current heat wave began Sept. 1, with a high of 92, followed by 92 on Sept. 2; 93 on Sept. 3, and 92 degrees yesterday.

The standing record, for five continuous days of 90-degree weather, was set way back in September, 1931. The previous record before that was for six days in a row, reached in September 1912.

Tonight will be partly cloudy, with a low temperature in the 70s, and tomorrow will be partly cloudy with more scattered thundershowers and a high from 85 to 90 degrees.

She's Our Hope

Labor Day Traffic Mishaps Kill 404

By United Press International

American motorists, perhaps heeding a constant stream of pleas to drive safely, closed the Labor Day weekend with a traffic toll below advance estimates, final compilations showed today.

The completed United Press International count of traffic dead showed 404 persons lost their lives between 6 p.m., Friday and 12:01 a.m., today.

The National Safety Council had estimated 420 would die during the holiday period. In theory, 16 lives were saved.

It was the second consecutive Labor Day that the traffic toll ended below the safety council's estimate. Last year the estimate was 460 and the toll was 415.

The UPI fatality breakdown:

Traffic	404
Drownings	72
Boating	7
Planes	3
Miscellaneous	81
Total	567

The toll included 34 dead in California traffic accidents, 22 in Pennsylvania, 21 in Texas and 20 in North Carolina. Other states with heavy traffic tolls: Michigan and Missouri, 17 each; New Jersey and Ohio, 16 each; Illinois and Virginia, 15 each; Florida and New York, 14 each and Georgia and West Virginia, 13 each.

Seven states went through the holiday period without any reported traffic fatalities: Alaska, Connecticut, Delaware, Hawaii, Maine,

If You Complain Of Homework

ARLINGTON, Va. (UPI) — Arlington schools have announced a new adult education course this fall for parents who complained of their children's homework.

The course is called, "A parent's introduction to modern mathematics."

After Money Refusal

A Quakertown automobile junk dealer was shot to death in the back by his 18-year - old son last night when he refused to give the youth some spending money, state police said.

Edward Studenroth, 48, died in Quakertown Hospital half an hour after he was struck by a shotgun blast on the front lawn of his home in a bungalow settlement a quarter mile west of here.

His son, Paul, a parttime laborer, was held on a homicide charge.

The son was locked up in the Quakertown Borough jail on an open charge of murder. District Attorney Paul R. Beckert said a hearing will be held in a week to 10 days.

Det. Duane Allen of the Bethlehem state police barracks said Studenroth and his wife, Glenna, were sitting in front of their home when Paul stormed out of the house shotgun in hand. Paul had been drinking earlier in the day, Allen said.

The youth, who had been away for the Labor Day weekend with friends, demanded some money. His father refused, Allen said, and started toward the house.

The detective said the enraged youth then felled his father with one shotgun blast as his terrified mother looked on.

Paul ran to a neighbor's to get halp and then aided police take Studenroth to the hospital. The victim died on the operating table.

The Studenroth's have two other sons, Stanley, 13, and Edward, 22.

Bucks County Coroner Dr. Wilmer S. Trinkle, who conducted an autopsy, said the father's left kidney was shattered and there were multiple cuts of the intestines.

Paul fired a pumpkin ball, a heavy metal ball used in hunting big game, according to state police.

State Trooper John Clisham said the short, stocky, bushy-haired suspect signed a statement admitting that he killed his father.

The shooting occurred at about 7:30 p.m.

Graham Crusade Attracts 300,000

PHILADELPHIA (UPI) —Evangelist Billy Graham resumes services tonight after taking a day of rest on Labor Day.

At the halfway mark in his four-week Crusade for Christ at Convention Hall, Graham has preached to nearly 300,000 persons and nearly 6,000 have come forward to declare themselves.

At his Sunday services Graham said that the Philadelphia crusade has been one of the most successful in his 13 years as an evangelist.

Football Preview, Schedules Today

Football is in the air.

The first of a series of articles on the 10 Lower Bucks County high schools and their grid prospects for this brand new football season appears in the Courier-Times today.

And the schedules for each team are also listed. Why not cut them out — so you'll always know where your favorite team will be playing.

Boro Firemen Battle Insects

Dominic (left) and John Nocito, both of the Consolidated Volunteer Fire Department of Bristol, hose down a property at 420 Lafayette St. The volunteers were summoned by neighbors to help rid the area of a swarm of large, roach-like insects.

An unidentified member of the Consolidated Volunteer Co. hoses down a tree on Lafayette St. after the routed insects took refuge there. Joseph J. Gallagher, borough building inspector, ordered the building at 420 evacuated this morning preparatory to bringing exterminators in with deadly fumigating gas or other poisons. The insects, he said, were there by the thousands.

Falls To Sign Contracts On Sewer Lines

Contracts will be signed tonight in Falls Township providing for the extension of sewer lines to 1,000 homes in the municipality.

The Township of Falls Sewer and Water Authority will also acquire the existing sewer facilities now servicing 2,300 Fairless Hills homes from the Danhert Corporation during the meeting.

The contract signing by the Falls Authority, Danherst representatives and four contracting companies culminates eight years of intensive work by the authority members.

The Fairless facilities will cost about four and a half million dollars, according to Richard Day, authority chairman.

Installing the new sewer lines, will cost $1,480,000, Day said.

The authority will pay for the new construction and the acquisition of the Fairless sewer lines by issuing bonds. These bonds will be purchased by the Danherst Corporation and paid for interest-free over a 25-year period, the authority chairman said.

New Lines

New sewer lines will be installed in Fallsington, Pennsbury Heights, Yardley Farms, Burgess Manor, Penn Village and the Taylor Tract. Negotiations and rebidding procedures are now being conducted to install an alternate line to Charles Boehm High Schools in Lower Makefield Township.

The contracts signed tonight will total $1,271,203.62. The difference in this amount and the amount borrowed ($1,480,000) to pay for the project is a result of about 20 per cent extra for contingencies.

Here are the companies, amounts of their contracts and the work they will perform. All are low bidders.

John Monte, Cleveland, Ohio, $438,657.86; Pennsbury Heights, Yardley Farms and collector system.

James Morrisey Company, Philadelphia, $640,936.90; force mains, interceptors and pumping stations.

United Foundations Corporation, N.J., $145,375.50; Fallsington area work.

Bray Brothers of Fallsington, $46,233.35; Rock Run and Olds Blvd. interceptors.

Day said construction will begin immediately and the project should be completed in about a year.

It's Official Now

Bucks Yields 80 Acres To Turnpike

HARRISBURG (UPI)—A long-delayed and controversial land trade involving 203 acres in Bucks and Somerset counties has the weight of law today.

Gov. David L. Lawrence signed legislation authorizing the trade between the state and the Pennsylvania Turnpike Commission.

Under its terms, the state will surrender 13 acres of ground in Somerset County and 80 acres of prime industrial land in Bucks County for 110 acres of turnpike owned land in Somerset County.

The Bucks County land which will be acquired by the turnpike is located just north of the Philadelphia line along the super toll road. The land in Somerset County will be used for industrial development.

Rep. Alan D. Williams, R-Bucks protested the bill as a "land grab" when the bill cleared the House. Originally, the state would have surrendered 153 acres of the prime Bucks County land, but the Senate reduced the amount to 80.

Kennedy, 2 Confer On Russian Tests

WASHINGTON (UPI) — President Kennedy today called in Chairman Glenn Seaborg of the Atomic Energy Commission and Defense Secretary Robert S. McNamara to talk about Russia's resumption of nuclear testing.

The President arranged appointments with the two officials almost as soon as he returned to the White House from a long holiday weekend at his family's Hyannis Port, Mass., home on Cape Cod.

Kennedy's jet landed at Andrews Air Force Base in nearby Maryland at 10:31 a. m. EDT and he immediately boarded a helicopter for the White House.

The jet arrived here from Otis Air Force Base, Mass. Kennedy hod driven from Hyannis Port to the air base.

Adlai E. Stevenson, U. S. ambassador to the United Nations, planned to meet with Kennedy later today. In addition, James Gavin, U. S. ambassador to France, was flying to Washington to report to the President on some private weekend discussions with French President Charles de Gaulle.

Concern over Russia's resumption of nuclear tests and discussions of a new U.S. - British plan to halt future testing in the atmosphere overshadowed the President's attempts to relax during the weekend.

Kennedy has been described as feeling that France—which tested nuclear devices during a three-year moratorium by the United States and Russia — would go along if there is a new British-American-Soviet ban on tests in the atmosphere.

Despite the announcement Monday of a second nuclear blast in Central Asia, the second in a series with which Russia has resumed atomic weapons tests, the White House retained some optimism.

Acting Press Secretary Andrew T. Hatcher said Kennedy and British Prime Minister Harold Macmillain hoped Soviet Premier Nikita S. Khrushchev would accept their Sunday bid to "protect mankind" by joining in a ban on atmospheric tests of nuclear weapons.

"That is still the hope," Hatcher said.

Levittown Youth Hurt

An 18-year-old Levittown youth was injured in an automobile accident early this morning in Morrisville.

Raymond Greiner, of 51 Candle Road, Cobalt Ridge, a passenger, and Gail Breece, 20, of 56 Miry Brook Road, Trenton, the driver, were taken to Mercer Hospital, Trenton, by Union Fire Co. ambulance after the accident, which occurred at 1:35 a.m.

Greiner suffered a cut lip and broken teeth and Miss Breece received a bruise of the forehead, when the car in which they were driving crashed into a tree and pole at 437 West Bridge St. Both were treated and released from Mercer Hospital.

Officer Frank Picciotti of Morrisville Police who investigated, said the car was a total loss, and that about 25 feet of lawn was damaged in front of the home of Charles Garman at the address.

25 Nations Draft Summit Plea

BELGRADE, Yugoslavia (UPI)—Leaders of non-aligned nations today completed drafting an urgent appeal to President Kennedy and Premier Nikita S. Khrushchev to meet soon and negotiate a settlement of the cold war before it erupts into a nuclear holocaust.

Informed sources said the appeal would be sent by the 25 nations meeting here "within the next 24 hours."

Middletown Democrats To Screen

The Democratic Association of Middletown Township will screen candidates Thursday evening, starting at 9:15 p.m., for the two vacancies declared open on the township board of supervisors.

According to Don Graham, publicity chairman of the Association, the screening will be held at the home of Attorney Virgil White, 36 Highland Park Way, Highland Park, Levittown.

Those interested in becoming candidates, Graham said, should contact White at WIndsor 9-0212. White is a Democratic committeeman in the township.

AF Officers Close Airport

BRAZILIA (UPI)—A new emergency in the crazy-quilt pattern of Brazil's political crisis today prevented Vice President Joao Goulart's scheduled arrival here to take over the watered-down presidency.

Goulart remained effectively grounded in Porto Alegre after dissident right-wing air force officers closed Brazilia's airport and threatened to shoot down Goulart's plane if he attempted to make the trip.

An airstrip on a Goulart-owned farm near Brasilia was reported seized to prevent its use as an emergency airport.

A dispatch from Porto Alegre indicating the gravity of the new situation said that rumors and counter-rumors were flying and that Goulart had been in conference at the governor's Piratini Palace since 4 a.m.

In Brasilia, Congress went into emergency session at 2:40 a.m. and Senate Vice President Auro Moura Andrade announced that acting President Ranieri Mazzilli had cancelled Goulart's safe-conduct guarantees.

Air force officers armed with machineguns prevented the departure of a score of congressmen who had planned to fly to Porto Alegre to meet Goulart and escort him here.

Girl, 12, Killed On Roller Coaster

YORK, Pa. (UPI) — Two carnival workers were charged with involuntary manslaughter Monday in the death of a 12-year-old girl who was thrown from a roller coaster at the nearby Dallastown Fair.

Billy Johnson of Lehighton, Pa., the operator of the coaster, was freed under $2,500 bond. His helper, John Royal, of Cincinnati, Ohio, was jailed in default of the bail.

The girl killed in the mishap was Carol E. Ruth of York. Darlene Einsig, 13, of York, who was riding with her in the same car, also was hurled to the ground. She was listed in serious condition at York Hospital.

Investigators said Royal pulled the starting lever of the coaster while Johnson was still adjusting safety belts on the two girls. The youngsters tumbled off when the ride went into motion.

Most Communities 'Quiet'

Twp. Mother's Death Lone Holiday Fatality

A Bristol Township mother of five children, who was killed in an accident Saturday night, was Lower Bucks County's only Labor Day weekend traffic fatality.

Aside from the fatality, most Lower Bucks communities reported "all quiet" on area roads during the 78-hour holiday period from 6 p.m. Friday to midnight last night.

Mrs. Louella M. Long, 27, of 2500 Green Ave., Laurel Bend Homes, Bristol Township, died in Lower Bucks County Hospital Saturday night six minutes after being admitted following an accident on Bath Road at Laurel Bend, Bristol Township.

Mrs. Edna Lobel, 35, of Lindenhurst, N.Y., a passenger in Mrs. Long's car, is in "satisfactory condition" at Lower Bucks Hospital today, recovering from a fractured left arm, lacerations of the nose and cheek and forehead.

Bristol Township police said Mrs. Long's auto went out of control at a bend on Bath Road at 10:45 p.m. as she was returning home, driving in the rear of a vehicle operated by her husband, Walter. Mrs. Long's car slid on loose gravel and went into a five-foot ditch near the home of Mrs. Theodore Barni, 2518 Bath Road.

Funeral services for Mrs. Long will be held Thursday in Lewistown, Pa.

A Croydon woman was injured Friday night in a two-car collision in Croydon while a New Jersey woman was hurt Saturday night in a three-car mishap on Route 13 at Beaver St., Bristol Borough.

Lower Bucks County Hospital reported "no admissions" from traffic accidents yesterday or Sunday.

Mrs. Joyce E. Howard, 33, of 703 River Road, Croydon, was treated at Lower Bucks Hospital for a bruised left arm after her auto was involved in a collision at New York and Cedar Aves., Croydon, with a car driven by Mrs. Rose Leininger, 36, of 2730 High Ave., Cornwells Heights. Mrs. Howard was taken to the hospital by the Bucks County Rescue Squad.

Borough police report that an auto driven by John Mulherin, 70, of 817 Pine St., Bristol, struck the rear of another car which was stopped for a traffic light. Mulherin was traveling east on Route 13.

The second car, driven by Raymond C. Mc Kenna, 50, of 720 Harrison St., Magnolia, N. J., was forced into the rear of the auto of Joseph J. Mc Gann, 17, of 160 Lower Orchard Drive, Levittown, which was also stopped for the light, police said.

Mrs. Maybelle Mc Kenna, 44, a passenger in her husband's car, was admitted to Lower Bucks County Hospital for injuries and received five sutures in the left leg.

According to police, Mulherin was going too fast for road conditions. Bristol Borough Patrolmen Joseph Mangiaraciana and James Flanagan investigated.

Two Bucks Men Burned

Two Bucks County men were badly burned this morning in an accident at a Philadelphia power station, according to Philadelphia police.

The accident shut off power at 11:30 a.m. to most of Bensalem Township, according to police there. Power was restored at about 12:10 p.m.

Undergoing treatment at Nazareth Hospital in Philadelphia for burns are William J. Holmes, 63, of 28 W. Congress St., Newtown and Milton Craig Jr., 18, of Newtown Pike, Buckingham. Both men are mechanics at the Philadelphia Electric Company sub-station at Byberry Road and Roosevelt Blvd. in Philadelphia. This station services Bensalem Township.

Spokesmen at the hospital did not disclose the extent or nature of the injuries sustained by the two men. Police at Philadelphia's seventh district, however, said they were burned about the body.

They said the two men were trying to make a connection on 33,000 volt electrical transformer. Both were burned by an electrical arc, according to Philadelphia police, that carried the full 33,000 volts.

Machine Looted At Restaurant

An undetermined amount of cash was stolen over the Labor Day weekend from a cigarette vending machine at Howard Johnson's restaurant, Route 13, Bristol Township.

Township police report an entry was discovered at 7:10 yesterday morning by Mrs. Mary Wilson, a waitress, when she opened the restaurant.

Investigating officer Edward Martin reported Mrs. Wilson found signs of entering at the rear door which had been pried open. The cigarette machine was broken into and the coin box was missing, police stated.

Charles Quay of Temple St., Bristol, restaurant manager, told police he was as yet unable to determine the amount of money stolen.

Russia Gives Jail Term To U. S. Scholar

MOSCOW (UPI)—A 23-year-old Fulbright scholar from the University of Pennsylvania has pleaded guilty to spying in Russia and was sentenced to eight years in prison, the Soviet government newspaper Izvestia reported today.

Marwin William Makinen, a native of Chassel, Mich., whose family now lives at Ashburnham, Mass., was tried yesterday by a military court in Kiev, capital of the Ukraine.

A similar court sentenced American U2 pilot Francis Gary Powers to 10 years imprisonment last year.

Tass news agency disclosed that Makinen, who was attending West Berlin's Free University on a U.S. government scholarship, had been arrested in the Ukraine on July 27.

He was accused of "taking pictures of a military objective" while travelling across eastern Europe as a tourist.

(Makinen's sister, Mrs. Carroll H. Arnold, said in Westminster, Mass., today that he had left Berlin this summer on a student tour.

("I'm afraid what they might do," she said, "because he is so intelligent."

(She said Makinen attended the University of Pennsylvania for three years and transferred last summer to the University of West Berlin for graduate work in science.

(He was described as a brilliant scholar who could speak nine languages.)

U.S. Embassy officials had sought permission to see Makinen, whose arrest was disclosed only Sunday.

Teachers To Hear Professor

Dr. B Paul Komisar will be the principal speaker when the Bristol Township Teachers Association holds its first meeting tomorrow.

The session will be held as part of the school system's opening workshop at Franklin Delano Roosevelt Junior High School, Levittown.

Dr. Komisar is a graduate of the University of Illinois. He has taught at Lehigh and Kent State Universities and is currently associate professor of education at Temple University. His latest book, "The Concept of Teaching," is scheduled for publication next year.

His topic will be "How The Teacher Can Serve The Community."

UAW Proposes GM Arbitration

DETROIT (UPI)—The United Auto Workers Union today proposed to General Motors that they submit their contract differences to "final and binding" arbitration.

However, the union proposed that the arbitrators be strictly bound to settle the differences on the basis of the settlement the UAW has already reached with American Motors and on the basis of benefits GM already provides for its salaried workers.

Polio Clinic Slated At Jefferson School

The sixth polio clinic sponsored by the Lower Bucks Committee for the Prevention of Polio and the Bucks County Health Department has been scheduled Saturday, Sept. 16, at Thomas Jefferson Elementary School, Red Cedar Hill, Levittown.

Isaac Ben Ezra, chairman of the committee, has reported the theme of the clinic will be "Back To School." The clinic will be held from 2 to 5 p.m.

Ben Ezra said that, as usual, the first, second, third and booster shots will be available. Cost is $1, but shots are free to those who cannot pay.

He said all local schools are participating in a drive to assure that every youngster receives full innoculation against the disease. The clinic is also intended for adults.

According to committee figures, 5,800 children and adults have been inoculated at previous clinics.

maining upright and firm."

But De Gaulle warned the possible effects of modern war, and asked, "what would be the good of ruling over dead people?"

He said the latest Russian moves on Berlin might result from "gaps and failings" in the internal Soviet situation and the fact that the satellite nations "were wounded in their feelings".

He promised that if the Russians ceased their threats and helped ease tension, the three Western powers would do everything with the Russians to insure peace.

In this case, he added, France would have some proposals of her own to make.

Police Use Radar To Arrest 95

HARRISBURG (UPI) — State police made 95 arrests during the Labor Day Holiday weekend using radar to detect speeders along Pennsylvania highways.

Commissioner Frank G. McCartney said 74 cars and 21 trucks were stopped for speeding by 16 radar teams which operated during daylight hours only. Radar as an enforcement tool became effective Sept. 1.

Besides the electronic speed check arrests, state police made 2,970 other traffic arrests during the four-day holiday weekend which ended Monday.

Greensburg's Troop A led the way in radar arrests with 14 auto and six trucks, while Troop E, Erie, showed 13 cars and two trucks.

Registrars Sites Named

The traveling registrars will sign voters tomorrow at the municipal building in Bristol Borough.

Thursday, the registrars will be at Newtown Borough Council chambers and the Richboro Fire House, Northampton Township.

The registrars will sit from 2 to 9 p.m.

Yanks Hurl

of private homes if necessary and turn television antennas away from Western transmitters and toward Communist transmitters.

Banners proclaiming "an end to listeners of Western transmitters" were put up throughout East Berlin and East Germany.

The two million members of the Communist youth organization (FDJ) were directed to go through every community starting this morning and report all television antennas aimed at Western transmitters.

The campaign, building up for several days, was aimed immediately at television because this is the easiest to check. Since Western and Communist TV transmitters are located in different areas, the direction the receiver antennas are pointed shows what stations are tuned in.

The Communists, by putting a wall across Berlin the morning of Aug. 13, isolated most East Germans from Western newspapers and magazines.

But they have been unable to jam Western radio and television stations without interfering with their own stations.

Morals Charge Jails Youth

John Malpass, 18, 143 Dogwood Drive, Levittown, was committed Saturday to Bucks County Prison, on charges of assault and battery and rape.

He is being held for court on the charges which involve a 15-year-old girl, according to Hulmeville Borough Justice of the Peace George Zarr, who committed Malpass.

The youth was arrested by Hulmeville Constable Richard Garber.

Malpass was released on probation from Bucks County Prison on Aug. 21 after being committed Aug. 18 on burglary charges.

Woman, 28, Shoots Self

A 28-year-old Langhorne woman shot herself to death in her home yesterday, Middletown Township police reported.

Mrs. Jane Alexander, 209 Woodbine Ave., was found on the kitchen floor at 2 p.m. by a neighbor, Mrs. Mary Berwick, 196 Canterberry Ave., Langhorne, police said. Joseph Alexander, the husband, was at a neighbor's home when the shooting took place, it was stated.

Mrs. Alexander, the mother of two, apparently was in the living room when she shot herself and staggered into the kitchen where she collapsed and died, according to Bucks County Deputy Coroner Berton Decker, who ruled the death a suicide. A 22 caliber pistol was found on the scene, police said. No note was found, they reported...

Mrs. Alexander is survived by her husband and two children, Mary Jane 2, and a son, Joseph, Jr., 5.

Weather

A HOT ONE

ANOTHER HOT ONE
